ABSTRACT

A questionnaire was administered to 1977 degree recipients at North Carolina State University regarding their post-graduation plans. Those who did not respond to the spring survey and those who responded but reported unemployment were mailed a followup questionnaire. The following information is presented: post-graduation statistics for bachelor's degree recipients by school, department, race, sex, and grade-point average; post-graduation statistics on master's and doctoral degree recipients by race and sex; mean salaries of bachelor's degree recipients by sex, race, and grade-point average; percentage of bachelor's degree recipients employed by sex, race, and grade-point average; and use of counseling and placement services in seeking employment for bachelor's degree recipients by school and total, and for total masters and total doctorates. The questionnaire is appended. (SW)

Survey of Spring 1977 Degree Recipients at
North Carolina State University

During the period of late April-early May of 1977, all prospective spring degree recipients were asked to complete a questionnaire regarding their post-graduation plans. In October of 1977, those who did not respond to the spring survey and those who responded but reported unemployment were mailed a follow-up questionnaire. This report is a summary of the two-part survey and reflects post-graduation status of spring 1977 degree recipients as of late November 1977. See Appendix A for a copy of the questionnaire.

The following information is provided in the report:

1. Post-graduation statistics for bachelor's degree recipients by school, department, race, sex, and grade-point-average.
2. Post-graduation statistics on master's and doctoral degree recipients by race and sex.
3. Mean salaries of bachelor's degree recipients, by sex, race, and grade-point-average category.
4. Percentage of bachelor's degree recipients employed by sex, race, and grade-point-average category.
5. Use of counseling and placement services in seeking employment for bachelor's degree recipients by school and total, and for total masters and total doctorates.

The response rates for the spring 1977 survey were the lowest experienced to date with this annually-administered questionnaire. Rates were 61% for bachelors, 53% for masters, and 56% for doctorates, as compared to 71%, 66%, and 74%, respectively, in 1976; and 76%, 79%, and 83%, respectively, in 1975.

## Study Highlights

1. Of the 61% of bachelor's degree recipients responding to the survey, 66% reported employment; 28%, further studies; and 6%, unemployment. Analogous figures for the 1976 graduates were 57%, 25%, and 18%, respectively.
2. Sixty-one percent of those bachelor's degree recipients employed accepted jobs in North Carolina, as compared to 65% for the spring 1976 bachelor's degree recipients.

3. The average annual salary for bachelor's degree recipients was $11,884; for master's degree recipients the average was $14,711; and for doctorates, $17,511. These average salaries compare to $11,101, $13,199, and $15,715, respectively, for 1976.
4. For those bachelor's degree recipients accepting employment, 7% reported "no college degree required and no relationship between job and academic program"; 52% reported "college degree in my field completely related and/or necessary to job".
5. Seventeen percent of those bachelor's degree recipients planning further studies indicated that difficulty encountered in finding employment influenced their decision to continue their educations.
6. Seventeen percent of the employed bachelor's degree recipients responded that, if just starting their college education, they would pursue degrees in curricula other than those in which they received degrees. Their reasons for this were because of difficulties in finding a job (38%), changes in career preference (31%), and "other" than job difficulties and changes in preference (31%).
7. For all bachelor's degree recipients, there was a $2,627 difference in average salary between men and women, with the former group having the higher salaries. The comparison of average salaries by GPA reveals that students in the highest GPA bracket (3.50 and above) received $1,878 more per year than those in the lowest bracket (2.50 and below).
8. Comparison of average salaries of bachelor's degree recipients by area of employment reveals that those employed in N.C. received $11,052; those employed elsewhere in the southeast received $13,080; and those employed elsewhere received $12,968. These average salaries compare with $10,178, $12,752, and $12,534, respectively, last year.
9. Employment rate by sex was 69% for males and 53% for females. Percentage employment for blacks (50%) was somewhat lower than for whites (66%), as opposed to the opposite situation last year when blacks enjoyed 76% employment as opposed to 57% for whites.
10. Of the master's degree recipients, 75% were employed, 15% reported further studies, and 10% were not employed, as opposed to 65%, 18%, and 17%, respectively, last year.

11. Ninety-four percent of those receiving doctorates were employed, as compared to 95% last year.
12. Sixty-one percent of the bachelor's degree recipients, 36% of the master's degree recipients, and 26% of the doctorate recipients reported using the services of the Career Planning and Placement Center in Dabney Hall.

## A Note on the Following Tables

For bachelor's degree recipients, "double majors" present a slight computational problem which might lead to some confusion with regard to the additivity of department totals to school totals and school totals to University totals. In the tables which follow, those graduates who received two degrees within the same school are included in both of their departments but are included only once in the school totals. Similarly, those graduates who received degrees in two different schools are included in both of their departments, and in both of their schools, but only once in the University totals.

Also worthy of mention is the fact that "cell" percentages in the tables are based on responses to pertinent questions. In one department, for example, five graduates reported employment; however, only three of these reported the geographical area of their employment. Since one of those three stated that he was employed in North Carolina, the percentage shown for "% in N.C." is 33%. All cell percentages follow this same pattern.

Finally, it should be pointed out that the parenthetical number beside each salary figure represents the number of salaries reported. In those cases where only one salary was reported, it is not included in the department figures, but is included in the school and University totals.

Please report your employment status as of this date and return the completed questionnaire to your department head's office or the the Department of Student Affairs Planning and Research, 204 Peele Hall, immediately. Thank you for your cooperation.

Today's date __ __/ __ __/ 77
month day

1. Please print in the spaces provided below:

Social Security Number __ __ __ - __ __ - __ __ __ __

Name __ __ __ __ __ __ __ __ __ __ __ __ __ __ __, __ __ __
(last name) (initials)

Age __ __ Sex __ (M or F) Curriculum __ __ __ Degree __ (B,M,D,)

Are you a veteran? __ 1. Yes/ __ 2. No;
if yes are you receiving veterans' benefits? __ 1. Yes/ __ 2. No

2. ___ Choose one from the following: (Please place the number of your response in the space provided on the left)
   1. Have accepted full-time employment. *(Go to #A below)*
   2. Planning further studies. *(Go to #B below)*
   3. Have not accepted full-time employment and not planning further studies. *(Go to #C on back)*

A. Place the number of your response to the left of each question.

___ Location of employment accepted?
   1. North Carolina
   2. Southeast U.S.: Specify State ___ ___
   3. Elsewhere: Specify State or Country ___ ___

___ With whom have you accepted employment?
   1. Self-employed
   2. Private organization
   3. Public Corporation
   4. Government (non-school system)
   5. School system (K-12); if so, will you be a teacher (check one) __1.Yes/__2.No.
   6. Post secondary institution; if so, will you be a teacher/professor? (check one) __ 1. Yes/ __ 2. No
   7. Military

Name of Organization _____

Job Title _____

Annual Salary Accepted $ __ __ __ __ __

___ What, to the best of your knowledge, is the relationship of your academic program to the job you have accepted?
   1. No college degree required and no relationship between job and academic program.
   2. No college degree required, but job is related to my academic program.
   3. College degree required, but no relationship between job and academic program.
   4. College degree required, and some knowledge in my academic field necessary.
   5. College degree in my field completely related and/or necessary to job.

*Please go to Section #D on back.*

B. Place the number of your response to the left of each question.

___ Was your decision to continue further studies influenced by difficulty experienced in finding a job?
   1. Yes
   2. No

___ What degree will you be seeking?
   1. Bachelors
   2. Masters
   3. Doctorate (Ed.D., PhD.)
   4. Law degree - professional
   5. Medical degree - professional
   6. Other professional degree
   7. Other
   8. None

Name of school attending _____

Field of study _____

*Please go to Section #D on back.*
